**W**elcome to the February issue of "Leminar Airconditioning Industries" newsletter. This is our initiative towards sharing information related to the activities happening within the organization including new product developments, product informations, and strategic partnerships among other things.

We want to share our ideas and information with you and at the same time invite your valuable suggestions, thereby making it an interactive channel of communication, enabling us to make improvisations as per the current market requirements.

In an attempt to provide the best solutions in the HVAC product range, keeping the life safety and the current environmental needs of our customers in mind, we are continually investing in our resources and facilities to cater the needs of our valued customers across the GCC.

## LEMINAR'S AED 100 MILLION INVESTMENT IN BUILDING THE LARGEST DUCTWORK FACILITY IN THE WORLD

Leminar Air Conditioning Industries, a part of the Al Shirawi Group of Companies, broke ground on the construction of their state-of-the-art ductwork fabrication facility, which once completed is set to be one of the largest duct fabrication facilities in the world.

Planned over 325,000 square feet of space with an investment of over AED 100 million, the new factory will be located in Dubai Industrial City (DIC) and will include fully automated duct line machines, spiral duct manufacturing, acoustic attenuators production, fire rated duct system along with the manufacturing fire dampers and other duct related accessories.

Present at the ground breaking ceremony were Navin Valrani, (CEO of Leminar), Dipak Bhadra (General Manager of Leminar), Saud Abu Alshawareb (Executive Director - Partner Relations, D.I.C), Ali Dawood (Executive Director - Operations, D.I.C ) and Pankaj Gandhi (M.D of Honest Constructions) the main contractor who will be managing the construction of the facility.

“**The new factory will set a new benchmark for duct manufacturing in the Middle East and will further seal Leminar’s position as the dominant player in the industry. Our investment is a reflection of the confidence we have in Dubai Industrial City and in the city of Dubai**”

**Navin Valrani**  
CEO- Leminar

Dubai Industrial City, spread across 560 million square feet, is a manufacturing and logistical destination of choice in the U.A.E. The facility is well connected to both the neighboring Emirates and to The Dubai World Central (DWC) Airport.

The anticipated completion date of the projects is February 2015, and once completed it will host some of the best manufacturing processes in the field of HVAC duct manufacturing and will serve customers both locally and all across the G.C.C.

**Dipak Bhadra (General Manager) said “Leminar is focused on strengthening its business and with our new factory, we are confident that it will accelerate our production and allow us to meet the increasing demand that we are anticipating in the UAE in the years to come”.**

Ground Breaking Ceremony

Leminar's upcoming facility at Dubai Industrial City

Leminar Air Conditioning Industries LLC, an ISO 9001:2008 certified company is a ductwork manufacturing firm, was established in the year 2000 to meet the growing requirements of the HVAC industry and to provide industrial clients in the area with professional and reliable products.

Leminar currently has international tie-ups with Spiro of Switzerland, Galloway Group UK (for Fenland Fire duct system and Acoustic products) with state-of-the-art manufacturing facilities in the UAE and Qatar.
